

(570)-972-0300

Cables for Every Environment™

## Technical Details

|                                      |                                     |
|--------------------------------------|-------------------------------------|
| SKU or PN :                          | 42362K-EQ                           |
| # of Conductors :                    | 3 Pairs                             |
| Conductor Gauge Size :               | 22 AWG                              |
| Conductor Type :                     | Stranded                            |
| Conductor Material :                 | Tinned Copper                       |
| Strand Count :                       | 7                                   |
| Capacitance (pF/FT) Nom. :           | 31                                  |
| Insulation Material :                | FEP                                 |
| Insulation Thickness (Inches Nom.) : | 0.006                               |
| Nominal Velocity of Propagation :    | 69% Nominal                         |
| Color Code :                         | Black/Red Black/White Black/Green   |
| Shield (Y N) :                       | Yes                                 |
| Shield Type :                        | Individual Foil Shield & Drain Wire |
| Jacket Material :                    | Extruded Red PVDF                   |
| Temperature :                        | -20°C to 150°C                      |
| O.D. (Inches Nom.) :                 | 0.211                               |
| Outer Diameter (MM Nom.) :           | 5.35                                |
| Voltage :                            | 300 Volts RMS                       |
| Approvals :                          | (UL) Or ETL CMP CL2P                |
| Weight /LBS per 1000FT:              | 30                                  |
| Item Type :                          | FEP/PVDF Cable Equal to 87777       |
