Cables for Every Environment™

## Technical Details

|                                      |                                                 |
|--------------------------------------|-------------------------------------------------|
| SKU or PN :                          | SRML-4                                          |
| # of Conductors :                    | 1                                               |
| Conductor Gauge Size :               | 4 AWG                                           |
| Conductor Type :                     | Stranded                                        |
| Conductor Material :                 | Tinned Copper                                   |
| Strand Count :                       | 133                                             |
| Insulation Material :                | Silicone Rubber                                 |
| Insulation Thickness (Inches Nom.) : | 0.063                                           |
| Shield (Y N) :                       | No                                              |
| Shield Type :                        | None                                            |
| Jacket Material :                    | Fiberglass braid with a high temperature finish |
| Temperature :                        | 200°C                                           |
| O.D. (Inches Nom.) :                 | 0.419                                           |
| Amps* :                              | 125                                             |
| Voltage :                            | 600 Volts                                       |
| Approvals :                          | Meets UL Requirements for 3071                  |
| Weight /LBS per 1000FT:              | 184                                             |
| Item Type :                          | SRML Wire                                       |
