## Technical Details

|                         |                                          |
|-------------------------|------------------------------------------|
| SKU or PN :             | R11751-SOLID-TSTAT                       |
| # of Conductors :       | 7 Conductors                             |
| Conductor Gauge Size :  | 18 AWG                                   |
| Conductor Type :        | Solid                                    |
| Conductor Material :    | Bare Copper                              |
| Insulation Material :   | PVC                                      |
| Color Code :            | Red/White/Green/Blue/Yellow/Brown/Orange |
| Shield (Y N) :          | no                                       |
| Jacket Material :       | PVC                                      |
| Temperature :           | 60°C                                     |
| O.D. (Inches Nom.) :    | 0.186                                    |
| Voltage :               | 150 Volts (Power Limited)                |
| Approvals :             | CM CL2 RoHs                              |
| Weight /LBS per 1000FT: | 45                                       |
| Item Type :             | Thermostat Wire                          |
