Cables for Every Environment™

## Technical Details

|                                  |                              |
|----------------------------------|------------------------------|
| SKU or PN :                      | RAD87012                     |
| Conductor Type :                 | Solid                        |
| Conductor Material :             | Bare Copper                  |
| Capacitance (pF/FT) Nom. :       | 15.8                         |
| Nominal Velocity of Propagation: | 84%                          |
| Impedance :                      | 75 Ohms                      |
| Shield Type :                    | Foil + 65% TC                |
| Jacket Material :                | LS PVC White                 |
| Temperature :                    | 75°C                         |
| O.D. (Inches Nom.) :             | 0.346                        |
| Approvals :                      | CMP CATVP RoHs               |
| Weight /LBS per 1000FT:          | 68                           |
| Item Type :                      | Coax Cable (RG11 F&B Plenum) |
