## Technical Details

|                                         |                                  |
|-----------------------------------------|----------------------------------|
| SKU or PN :                             | SOOW-6/5                         |
| # of Conductors :                       | 5                                |
| Conductor Gauge Size :                  | 6                                |
| Conductor Type :                        | Stranded                         |
| Conductor Material :                    | Bare Copper                      |
| Strand Count :                          | 101/26                           |
| Insulation Material :                   | Synthetic Rubber                 |
| Insulation Thickness<br>(Inches Nom.) : | 0.05                             |
| Color Code :                            | Black/ White/ Red/ Green/ Orange |
| Jacket Material :                       | Black CPE                        |
| Temperature :                           | 90°C                             |
| O.D. (Inches Nom.) :                    | 0.945                            |
| Outer Diameter (MM Nom.) :              | 24                               |
| Amps* :                                 | 36                               |
| Voltage :                               | 600V                             |
| Approvals :                             | RoHs MSHA                        |
| Weight /LBS per 1000FT:                 | 750                              |
| Item Type :                             | SOOW Non UL                      |

\*: \* Ampacity is based on NEC Table 400.5(A)

\*\*: All data and dimensions are nominal and subject to industry standards and may vary according to plant of manufacture.

\*\*\*: Data is provided for informational purposes and does not create a binding obligation nor liability to the seller. Data can change without notice.
