## Technical Details

|                                         |                                          |
|-----------------------------------------|------------------------------------------|
| SKU or PN :                             | SEOOW-10/5                               |
| # of Conductors :                       | 5                                        |
| Conductor Gauge Size :                  | 10                                       |
| Conductor Type :                        | Stranded                                 |
| Conductor Material :                    | Bare Copper                              |
| Strand Count :                          | 104/30                                   |
| Insulation Material :                   | TPE (Thermoplastic Elastomer)            |
| Insulation Thickness<br>(Inches Nom.) : | 0.045                                    |
| Color Code :                            | ICEA Method 1 - Table E-1 (See attached) |
| Shield (Y N) :                          | No                                       |
| Jacket Material :                       | Black TPE                                |
| Temperature :                           | 105°C                                    |
| O.D. (Inches Nom.) :                    | 0.762                                    |
| Outer Diameter (MM Nom.) :              | 19.355                                   |
| Amps* :                                 | 20                                       |
| Voltage :                               | 600V                                     |
| Approvals :                             | (UL) SEOOW CSA MSHA RoHs                 |
| Weight /LBS per 1000FT:                 | 358                                      |
| Item Type :                             | SEOOW-UL                                 |

\*: \* Ampacity is based on NEC Table 400.5(A)

\*\*: All data and dimensions are nominal and subject to industry standards and may vary according to plant of manufacture.
